## CURRENT/PAST PERFORMANCES

**Minneapolis Public Schools:** Installed Software upgrade and implemented New GL, SRM, Success factors solutions to their existing SAP solution. New Solutions included Electronic Approval Workflow, Non-bid contract management, Vendor Self-maintenance as part of the new Procurement solution. New GL helped bring multiple external legacy solutions into one unified system. Classic GL, Profit Center Ledger, Spl ledger etc under one umbrella. This helped MPS produce accurate and timely Financial reports.

**Department of Interior:** FBMS (Financial and Business Management System) project is one of the pioneer projects initiated to retire aging systems and replace with new efficient solutions. FBMS supports processes related to Fin mgmt., Budget Execution, acquisition, grants and cooperative agreements, real and personal property mgmt., fleet mgmt., travel and reporting. Till date, 86 legacy systems have been retired.

**Department of Homeland Security-CBP:** Border Enforcement and Management Systems project to operate, manage and enhance systems used to improve security at America's borders and ports of entry. Our team helped in supporting the design, development, testing, implementation and maintenance of CBP's IT systems.
